(f) نَفْخَةٌ وَاحِدَةٌ (f) فِي الصُّورِ (m) نُفْخٍ

• Naa'ebul Jaa'il • MBF Mukaddam • Past Passive

"A single breath shall be blown into the trumpet".

is inclusive ← masculine ← نُفْخٍ

is exclusive ← feminine ← نَفْخَةٌ

* In grammar you are allowed to use masculine version of Fi'l with a Jaa'il Mu'ajasil (faraway) even if it's a ~~so~~ version.

creates chain reaction. ← نُفْخٍ

In one single breath there is death, judgement day etc. destruction, the end etc. That one single breath represents a lot of things.

So just by making نُفْخٍ masculine so many things will happen which are included in the chain reaction.
